

# White paper Hodlers Network

## Overview:

This white paper is going to provide an insight into the services that are provided by Hodlers Network Token. Hodlers Network offers to verify the users and avert deception to its holders. Its services are based on the Binance Blockchain technology, which is one of the largest

# White paper Hodlers Network

cryptocurrency exchanges in the world. Hodlers Network is the first network to offer the solutions regarding cryptocurrency problems.

## Introduction:

Crypto currencies are gaining traction worldwide since the past few years. According to statistics, the cryptocurrency market is estimated to grow at CAGR of 56.4% between the years 2019 to 2025 and the cryptocurrency users have crossed the 40 million mark at the global level. Hodlers Network is based on the Binance Smart Chain platform, which is an essential player in the cryptocurrency market and ranked among the largest cryptocurrency exchanges of the world in 2021 (Statista , 2021). Hodlers Network is going to be the first company to be reviewed and audited by the community in trust review platform.

## Services and products:

First, Hodlers Network is going to follow the following roadmap:

## Business Development:

Hodlers Network business development started in February 2021. It included the approval to start the project, explore all domains such as the team and investors etc.

## Creation of main network:

Hodlers created its main network in March 2021. It included HDN token creation and development of a trust review website.

# White paper Hodlers Network

## Starting of HDN token presale:

The presale of HDN token has started and it will go on for three weeks. In the first week, users can buy 20,000 HDN for 1BNB to 10 BNB. In the second week, the users can buy 15,000 HDN for 1 BNB to 10 BNB. In the final week, the users can buy 10,000 HDN for 1 BNB to 10 BNB

For a Total of 20 000 000 HDN in Public Sale.

## Trust Review Official Project Launch:

Hodlers network is going to launch the official trust review Project in May 2021. It will be the public audit site of the company.

## HDN listed in EXC:

In June 2021, Hodlers Network is going to list in EXC.

## Hodlers wallet:

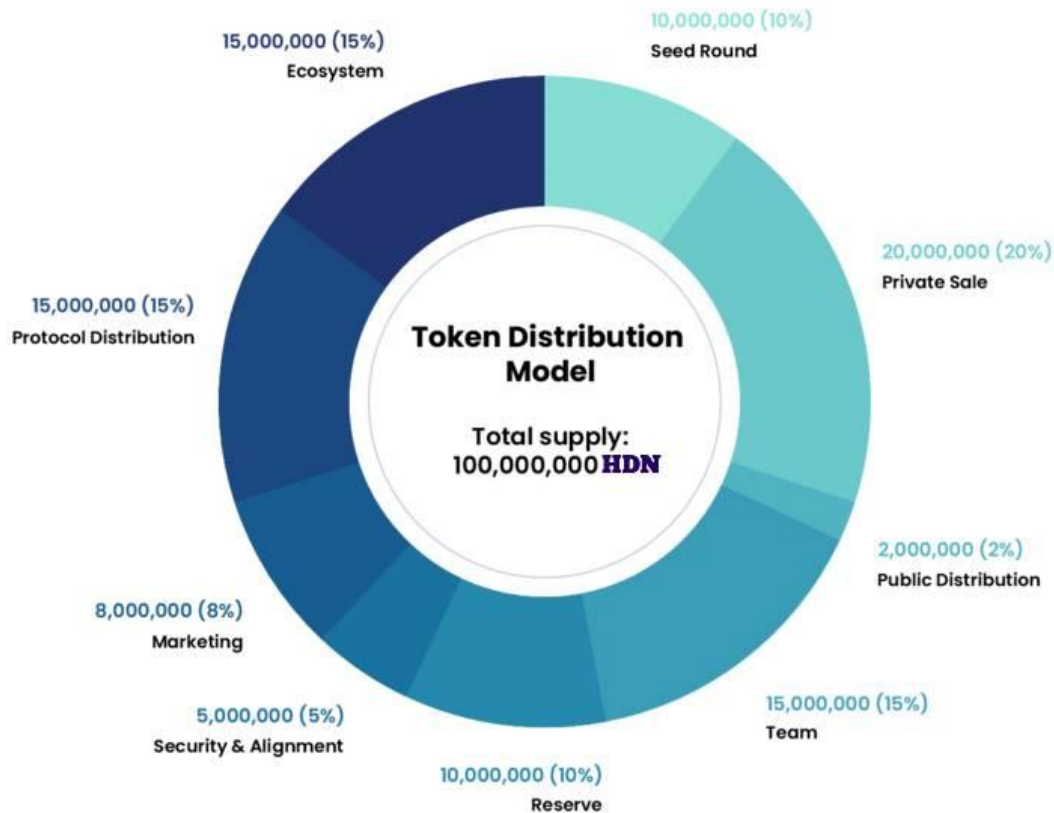

Hodlers Network is going to start Hodlers wallet in July 2021.

## Crypteon launch:

Hodlers Network will launch its Crypteon in September 2021. A membership website like Patreon will be launched in order to pay the Youtubers, influencers, Ticktokers and streamers to be paid in Hodlers Network's HDN currency.

## HDN Tokens:

# White paper Hodlers Network

HDN will be released on Binance Smart chain platform and it completely follows the BEP-20 standard. The standard will render the token compatible with third party services such as listings, wallets, and exchanges. It will also provide convenient integration, however, HDN can only be used on platform ecosystem for the time being. Its symbols is \$HDN and will contain 100,000,000 tokens. The HDN tokens will be used to trade and pay in Hodlers network.

## Functions of HDN tokens:

- remuneration to copyright owners of digital content
- remuneration for partner programs

## Trust Review:

Hodlers Network has created a trust review Project for regular crypto holders. The objective of creating the trust review website is to provide the crypto holders to review the new and old coins. It will also foster the sense of trust and credibility to the prospective new and former crypto businesses. The website will play a vital role in filtering the scams and avert the fraud or deceit.

This website will be one-step ahead of general audits, which only center on business structure and coding. Trust review website will provide the crypto community an atmosphere where they will be able to share their experiences in the market and give feedback for any sector of crypto business such as support, coin supply, business model website to name a few. The community of experts will judge those experiences and feedback to improve the quality of crypto business.

## NFT marketplace:

NFT marketplace is also provided by Hodlers network. NFT (Non-Fungible tokens) are getting a lot of hype these days and its market is valued at 250 USD in 2021 (Insider, 2021). NFTs are unique digital items or files that are issued by block chain such as trading cards, digital art, audio, real estate, or virtual games etc.

As the digital files are easily reproducible, the NFTs attached to each file are unique and can be tracked on the underlying blockchain in order to

bear the proof of ownership. Blockchains such as BSC and Flow have their particular NFT token standards that suggest and control the respective use of those NTFs.

## **Social network the Hodlers book:**

Hodlers Network is going to launch Hodlers network for the crypto holders soon. The importance of social media in spreading the information about cryptocurrency and their acceptance among the masses cannot be denied. In fact social networking sites such as Facebook, Twitter and particularly Reddit had been instrumental in popularizing the first cryptocurrency namely Bitcoin in 2010 and onwards. Therefore, Hodlers is going to launch Hodlers Book. It will offer plenty of options for the cryptocurrency community in particular and the other users in general, to get in contact with the best crypto traders, influencers, groups or companies regarding cryptocurrency market.

It will also provide a platform for the users to share their portfolios, news and all about crypto currencies. They will have the opportunity to create and join coin-groups, follow their favourite investors and their coins. On the other hand, social platform will give the companies to create coin pages and share important announcements, advertisements and news for the right targets. For example, Ripple, a blockchain for global payments is using social media for successful business. It has over a million followers on Twitter, where it continuously

# White paper Hodlers Network

shares different endeavours such as educational webinars with the audiences. (Lee, 2018).

## Hodlers Network Mobile App:

Hodlers network's mobile app is compatible with android, iPhone and web browsers.

## Insurance protection:

Hodlers network is very particular about the security considerations. Therefore, it will promote and guarantee a safe and secure crypto currency environment.

## Secure storage:

The community will audit the crypto currency business storage of Hodlers Network.
